

Shé D'Montford - You Choose The One

Shambhalla Awareness Centre News Letter No.3 2009

Greetings All

Wow!

What a hectic time in Sydney for the **Mind Body and Spirit** Festival. I Caught up with my friends and fellow "Ones" Mitchell Combs, Ezio D'Anglis & Amanda Rossettie, did 147 private readings, 6 free talks, a stage performance and a full Spirit Communication workshop in just 4 days.

It was a privilege to have been able to meet so many of you. Thank you for all of your beautiful feedback. Unfortunately The available reading appointments were booked out by 11am each day and it was terribly disappointing for me to have to turn so many of you away. Sydney did teach me one thing and that is to encourage you all to get in early if you have need of my services when I am in your town. Since then Tweed Heads and Hervey Bay have been equally busy. But I am determined to stick to my promise of not having a waiting list.

Book early when I come to a town near you. I will be in Melbourne at the MBS Friday 5th June - Monday 8 June with extra 1hour readings and a Spirit Communication workshop on Tues 8th and at the Brisbane MBS Friday 26th June - Sunday 28th too. If you need me remember that I am as close as the phone or internet. You may organise a phone reading by contacting my booking agent, John Gold, on 0408 788 516 or you can make an appointment for a Skype internet reading. This is a very cost effective method of communicating on the internet and you can download the program for free!

Taking The Medium Out Of The Message

Can you work directly with spirit? Yes you can! The Spirit Communication workshops have become been a huge success for all the people involved in them. The majority of attendees have intense experiences of reconnection with dead loved ones as well as learning the how-tos of working with spirits of all types. This workshop addresses many issues ranging from "What is Death?", dealing with the fear and mis-information about the other side, through to dealing with mischievous entities. There is nothing to fear in working with spirit if you understand the rules. This workshop opens you to living in a much larger world

Hi She, ... I met you at the Psychic Expo in Toowoomba recently. I have attached some photos ... I have also ... attached one I took of you performing from where I was sitting on the end on the right side a few seats back from the front on the Sunday. There looks to be a giant ghostly hand in the photo. Let me know what you think.. You were really wonderful in "The One", especially when you were helping people who needed it even if it meant that you didn't score as many points. Thanks for your 2minute reading at the show. It was spot on and I am going to take heed of what you said about taking time to grieve and to care for people.

Regards xx Jenny Gersekowski xx

Dear She, Just wanted you to know that in my book, YOU are The One. I felt your pain when you were asked to produce and perform for Australia. The show called for "hits", and fair enough, that was the rules of the show and the name of the game. But you are soooooo much more, because you ARE your heart. National Television and Australia's entire community of critics' eyes could not MAKE you fall prey to sensationalization or narrow-minded accreditation attempts. You HAD to follow your heart and to set aside the rules of the game, showing the World that YOU are The TRUE One. Thank you for that. Love, Gitte Linding

Free Appearances

I have always believed in empowering people rather than increasing my market niche.

I kept my promise of making myself freely available. My goal is to completely reduce my market niche by producing enough trained professional psychics to cope with the overwhelming public demand, and then I can go back to my writing and be a hermit. I have put free lessons on 'Seeing Auras' and 'Levitation' along with other cool stuff filmed over the last 20-years of me doing this work up on my Youtube channel

I want to thank all the people who are linking and making comments on their websites about the work we are doing. The response has been phenomenal. I am now getting a chance respond to each of you individually, until I catch up with you, please know that it is deeply appreciated and brings good karma too!

Top-Secret/High-Priority

In 2010 Shé will have the privilege of hosting and conducting workshops with the legendary Cassandra Eason, amazing author of over 80 best-selling books on all aspects of metaphysics. There is not much that this humble and motherly English author doesn't know! She walks the talk and lives what she writes about. Book early for this one.

This dynamic-duo are coming to Sydney, Melbourne, Perth and live in intensive in Springbrook Queensland

P.S. Shé wants you all to remember that the work that Shambhallah Awareness Centre accomplishes in raising public awareness of the old ways, psychic skills and ancient wisdoms as well as empowering individuals, is not just done by the Rev. Dr. S. D'Montford. There are a team of dedicated individuals that give their time, effort, energy and resources to help bring all this accurate information and energy to you. Though there are many who have assisted us, in this issue we would like to thank. Fiona Miles, Lucas Preedy, Chrissy ne-Lawrence, Ken Wills, Konnie and John Gold, Leonie Rose-Jones, , Shane Jones, Hania, the many others who talk about and share the information that they receive through our publications, public talks, websites, workshops, retreats and personal attention. You are the ones who make this all possible.

THANK YOU ALL
